Trend of purchasing medicine from online is become very popular nowadays. Buying the normal generic drugs from the online pharmacy is ok!! But what you think about the prescription drugs? Is it lawful to buy these drugs from online chemists? Then the answer is yes, but it depends on certain conditions. Make sure that the pharmacy you choose is reliable and meets all the official requirements. According to the US Federal Law, before selling any prescription drug it is essential that the seller asks for the doctor's signed prescription. Some online stores provide a questioner and on the basis of the patient's answer they issue the drugs. This is not the right way, be an aware buyer and follow the rules for the sake of your health.
