Here I have my Peugeot 307 SW for sale. MOT'd until JANUARY 2017 - passed with NO advisories. The car drives really well and starts every time, I've owned it for two years and it's never let me down, it's very reliable. It has a huge panoramic sunroof!

Only two points to note would be that the electric window button for the passenger window doesn't put the window up off the drivers control panel (but you can use it to put it down) but works fine from the passenger side. The CD bit in the CD player also doesn't seem to be working, just something that didn't bother us so we never got round to sorting out. Other than that there's a couple of age related marks as you'd expect from a car this age. Inside is clean and tidy with no rips or tears. I don't always get a good phone signal at work but leave me a message with your name and number and I can call you back . £895.
