The Internet can be accessed by it's built-in WiFi adapter, and the DVD drive can be used to play and download lots of DVD-R/RW films, music, and school work etc.

It's a very stylish design with silver/chrome and black palm rest, touch pad and glossy black case. It's very quiet and makes an ideal music computer, or a great body unit for a sheet music system because of its extra large widescreen.

It comes in a high quality padded carry case so it's easily transportable anywhere, the battery is in good condition and lasts about an hour (new batteries last about 2 hours and are about £12 on the Internet).

This can be delivered for free within 25 miles of Warrington and £10 delivery up to 50 miles.

If you need it further away, the item can also be posted for £8 by insured courier service if you like really.

far away :-)

If you have any questions please feel free to ask. If I miss any calls I'll phone back soon as I can. May part-ex on other computer and electronic:-)
