Ovation Applause AE127 in Sunburst The Ovation Applause AE127 mid depth electro-acoustic guitar uses the same USA manufactured Lyrachord bowl and Thinline undersaddle pickups as the rest of the Ovation range, but at an affordable price. Thinline pickups provide quick response and superior dynamic range for exceptional solo performance. The semi-parabolic bowl projects more acoustic output than a traditional syle guitar, and requires less sound-deadening bracing. The Ovation Applause AE127 features the new OP4B EQ preamp with active battery powered circuitry for a hotter output signal, less sensitive to external interference, like hum from lighting rigs, and you get a more workable signal at the mixing desk. The OP4B has 3-band EQ with center detents, single rotary gain control, battery LED. .
