were made this year which were based on the 57 model.

Very rare 1982 Fender Stratocaster from the Dan Smith era. These are very collectable. Only a handful

Guitar is white with maple neck well played so has the perfect ages look. Frets are original and in great condition.

Years ago this guitar got upgraded with EMG pickups. These were custom pickups from EMG, no model are on them apart from custom. The sounds are amazing. Can get usual blues strat to sabbath sounds.
