I have just upgraded to latest model so am selling my other iMac in this auction. When I purchased it in 2012, I upgraded the RAM to 16GB and the Processor to quad core i7 so that it could easily manage image editing (Photoshop) and also Audio Visual slide creating (Pictures To Exe)

The computer also has an internal CD/DVD player and burner. It comes complete with a Magic Mouse and the Full USB Keyboard, which means that it has its own numeric keypad.

It has been lovingly cared for and is in excellent condition. I have returned it to factory settings and have upgraded the operating system to El-Capitan. Original box and packaging is also available.

The buyer must collect and I will assist him/her with setting up the computer, if.
