

Empathy, Anxiety amp Animals

PARTICIPANTS NEEDED!

Anxiety, Empathy & Animals

We are running an online questionnaire to find out more about the relationship between anxiety, empathy and animals.

We'd like to learn about your views, experiences and attitudes towards animals, yourself, others and the natural environment.

Whether you have pets or don't, love animals or not, we would love to hear from you

Please click on the link provided or email r.lawes@sussex.ac.uk for more information

Location

South East, East Sussex

Hi,

I am an MRes Psychological Research Methods student and for my project I am investigating the relationship between state/trait anxiety, empathy and animals.

I am looking for participants to complete a questionnaire. The study will concern your experiences with animals during childhood, the pets you own or might like to own in the future (if any) as well as your attitudes towards yourself, other people, animals and the natural environment.

You do not need to be an animal lover or even a pet-owner to take part.

Your responses will be kept anonymous and any data collected will remain confidential. The questionnaire will take around 20 minutes to complete.

To begin the study please follow this
