Two Pedigree boy Shih-zu puppies . Stunning looks with green eyes and white/light brown coloring. They are well adjusted and have good temperaments as with mum all the time. Up to date vet checks, wormed and flea treated. Top quality puppy food for weaning plus I give milk and fresh water throughout the day. They all play and run around with each other in my living room where they sleep with mum. Ready to rehome end of February. On photos I've included pictures of mum and dad.;
