Barnesbrook dog cages made bespoke to fit a Suzuki Carry but should fit in larger vans too.

One x large cage which is easily big enough for a Great Dane. This cage sat behind the front seats and has 2 doors at opposite sides. The width (sides with doors) is 37" and the length is 47" at the base, and tapers upwards to be 37" at the top. The height is 39".

The large double cage is 48" x 29" and has a removable divider. It is 26 " high. This cage fitted behind the large one. Suitable for Collies, Labradors etc.

There is a smaller double cage which sits on top of the large double. It is ideal for little dogs such as terriers and toy breeds. I don't have the measurements for this one but can take them on request.

The cages are in good working order but could do with being re-coated as some of the black coating has chipped off.

Price is for all 3, but I would also consider selling seperately. Please email me for a.
