In many ways Triumph were well ahead of the game when they introduced the Speed Triple. It is essentially a naked "Streetfighter" Daytona. A relatively simple process that produced a truly amazing bike. Great handling and control are provided through the wide bars with the 955 triple motor providing 120 useable horses, pulling cleanly throughout the rev range. This particular bike has been well cared for during its life, which is evident from its overall condition. The paint on the wheels is bubbling slightly which is the only weak point on this otherwise very clean machine. It has the original service book with stamps at 499, 3212, 5314, 6660, 6896, 10614, 17184, 18191 and 19164, we will add another when sold. The bike is largely standard, though has been fitted with a Blue Flame can for added character and a set of Pro Taper handle bars with Bar End mirrors, which really suits the look of the bike. As with all our bikes it is of course HPI clear and will be fully prepared by our workshop prior to collection. Part exchanges are very welcome as we are always looking for used bikes, we are also happy to settle or arrange finance and trade up or down. £2995
