This coat is essentially a two in one product! It has a lovely fleece lining which is perfect for this British weather and the exterior of it is also waterproof. It has a hood attached, along with two side pockets and a pocket on the chest area to keep valuables if you're on a day out. The coat is a size 14, fits to it's size and has the ability to fit another layer underneath with the already fleeced lining - unfortunately it is too big for me now and would love somebody to have it rather than it being in the wardrobe! The base colour of the coat is navy with a small Joules emblem on the bottom right hand corner and on the chest pocket - it has only been worn twice and was purchased in Padstow in Cornwall. Due to the lack of use, it is in impeccable condition!;
