Brand New Manfrotto Advanced travel backpack for sale, description below

£55 or nearest offer - cash only - collection only

The Travel Backpack is the perfect solution for photographers who want to have everything they need on them at all times: photography gear, tripod and personal belongings. All this fits perfectly in a single compact volume that's comfortable and easy to carry everywhere. However, when more room is needed, the extendable padded side pocket provides additional space for a travel size tripod.

The upper part is dedicated to personal belongings, while the bottom section, which has quick side access, can carry a camera with attached lens, 1-2 additional lenses, flash and accessories. A 13" laptop can be stored in the dedicated back compartment. The zippered floor of the upper section can be unzipped and the dividers removed to convert into an everyday backpack.

A tripod can be attached onto the front of the pack or carried in the extendable side pocket. This side pocket is suitable for carrying a Befree.
