This fantastic potty was bought by my parents as present for my toddler recently when he wasn't keen on making the transition from nappies to potty. It worked perfectly and now seems like a distant memory going through the difficulties of potty training. It is in immaculate condition and has been thoroughly disinfected and entirely cleaned. It looks brand new and also have the box and packaging. As you will see from one of the photos there appears to be a slight mark on the toilet seat lid, which I may have done when I cleaned it. Otherwise its perfect. The purchase price was £55 but we would be happy to accept £40 or nearest offer. The official info on the potty is below..... This Fisher Price potty really does make potty training fun! Because it looks similar to a real toilet, it encourages kids to make the transition to the grown up "potty". includes a 'chrome' flush handle with a click, a retractable toilet paper roll holder and a fully functioning seat with lid. Toddlers are rewarded with 5 phrases and 2 sing-along training songs for "contributions." There are 2 stages of use: 1) the full potty on the floor for the beginner with an easy clean bucket, and 2) the seat and lid come off and snap onto the adult seat to help transition to the 'big' potty. A guard for boys is included. Songs and sound effects reward success and provide motivation for return trips.

Realistic elements of potty encourage transition to grown-up toilet.

Bowl removes for easy clean-up.

Can be used on a regular toilet seat to help with transition.

3 x AA batteries (included)

Suitable for all
