XM TD SED, RH Drive, top of the range, looks good in white. Electric seats and sun roof all work. Black Leather upholstery. Cannot run two cars, this one needs a garage sheltered protection to maintain its good appearance. The car was previously owned by a Citroen mechanic, deceased, so no service history, but it is believed the engine was changed, new spheres fitted, a stainless steel exhaust and tow bar fitted. Car rides well as would be expected. A major service was carried out last September, including MOT, front suspension bushes, cam belt and water pump, normal engine service, bill for £960
