

## AX-LIGHTNESS quotVIALquot top-end road bike unique quotBLUE RAYSquot race-bi

Location South East, Middlesex

https://www.freeadsz.co.uk/x-272528-z

Dream Road from Carbon silversmith AX-Lightness unique design

**Dura-Ace brakes** 

Handlebar Ritchey WCS Carbon

Crank FSA K-Force

Seatpost engage "revit" by ax-lightness and saddle "fluke"

Dura-Ace 9000 (11/2 times) circuit + Dura-Ace 9000 Cassette

TUNE bottle holder "Sociable"

Lightweight handlebar tape

WITHOUT pedals (opposite picture)

Frame size 58 / L, top tube center / center 55,5cm (Horizontal = 57 cm) seat tube 51 cm, stem 110mm,

420mm handlebars (center / center)

for drivers by about 175-185 cm tall

Total weight ready (with wheels): sensational 5.6 kg, while only lightweight components were not "come hell" selected, were at the brakes as (!) explicitly blocked due to quality brake performance Dura-Ace, not least because this thicker tires could be run, as well was also on the "K-Force" -Kurbel regarding outstanding stiffness resorted with low weight

the wheel was a fair wheel and was about 150km test drove me out of curiosity: I've never driven a more agile + competes-faster race bike!
