Just arrived in from the states barn find 1974 Suzuki GT750 3 cylinder 2 stroke. showing 12,000 miles, been stood a good few years as the engine is seized and has a broken spark plug, the tyres are perished, the rear wheel rim and the lh upper exhaust has rust spots on it, we maybe able to source both items at a reasonable cost. Now for the good news, the seat base is very good as is the rear mudguard and the bike is very complete just missing the indicators, side panel badges and the plastic radiator grille. we have the nova tax paid paperwork and once restored and moted you will be able to register on to an age related plate for £55. great project with the end result of a valuable bike and i think one of the nicest seventies rides we maybe able to deliver email your postcode for a quote and pay by card over the phone ring 07885 498007 easy. check out our GT750J drum brake easy project and our other seventies bike projects in stock plus another 10 just arrived one being the super original kawasaki s2 350 in the last.
