Just arrived in from local customer 1985 BMW k100 tourer unused for 3 years but started regularly but the battery is flat but with a jump start it started straight away,sounds sweet had a quick go around the car park clutch feels ok,brakes work but discs will need cleaning up for mot and brake light switch sticking.the speedo shows 23,000 miles but it was a new one fitted at about 52,000 so mileage is approx 75,000.selling as a running project bike no warranty and no mot,will need to be trailered away or we may be able to deliver email your post code for a quote and pay by card over the phone ring 07885 498007.would make a great cafe racer as these are 100bhp bikes or if u want to keep standard we have a full set of bmw touring panniers and rack/box for £50 extra but the rear seat fairing will need work as it is cracked.there is a lot of paperwork,receipts,old mots and riders manual to go with the bike as the owner had it 8 years and toured france but is now to big for him to use.we also have the exhaust heat shield.priced to sell this week as we deal in seventies jap bikes and need the space.sorry not open this saturday its my birthday going for a beer
