

WASHING MACHINES

Miele Complete every load with the care it deserves, no matter the fabrics, with the Miele WKB120 Washing Machine. Miele engineering Engineered to deliver the highest levels of washing performance, the WKB120 utilises Miele's years of experience and expertise to ensure your clothes receive an exceptional wash every time. Capable of washing up to 8 kg at a time, this washing machine is ideal for a busy family household. Awarded an A+++ energy rating, it's very efficient and lets you get your clothes clean while keeping bills low. In addition to its eco commitments, Miele have also designed the WKB120 Washing Machine to be extremely quiet, operating at an impressive 48 dB(A). Programmes Choose from 13 wash cycles to pick a wash that best suits your needs. Whether you need to clean denim or duvets, the WKB120 has a programme that will provide outstanding results. Helping to make life easier, a pre-iron function releases steam into the drum at the end of a wash which reduces creasing in your clothes and makes ironing less of a challenge. CapDosing If you have items which require a particular level of care, take advantage of the CapDosing system. A single use capsule can be used for fabrics such as wool and silks and ensure your delicates are cared for and receive the specific detergent care they require. Suits your schedule Enjoy the flexibility to plan your wash in advance thanks to the Delay Start function. Letting you postpone the start of the wash for up to 24 hours, you can make sure the washing is completed at the times that best suit you. For the times when you need clean clothing in a hurry, quick wash options are available. Capable of cleaning 3.5 kg of clothing in just 20 minutes, the WKB120 will never leave you waiting long. Safe and reliable Built to the highest standards, this washing machine is supplied with a 5-year manufacturer's guarantee. A built-in water control system gives you excellent protection against

any potential water damage. If a leak is detected at any point by the machine, the water inlet will be automatically shut off, making sure your house and equipment remain safe. **Learn the latest in water leak detection technology with the WKS-200 Washing Machine.** Call 800
