2007 (57 Plate) Porsche 911 Carrera 4S Tiptronic/Auto. This car is in immaculate Pristine condition, bodywork is unmarked as are the wheels. Engine runs perfectly and has full dealer history. It has all the extras you would expect, PDC, SAT NAV, CD Changer, Full Black Leather Interior I exported this car 1 year ago for a friend in Germany who planned to ship it to Australia where he is working for 2 years. Since then the luxury car import tax in Australia increased dramatically and he has decided to re-import the car to the UK, hence the German plates. The car was sat in his garage for one year until being driven back via Munich to Bristol at xmas. I have the Nova Certificate and will register the car obviously with full MOT before sold. Looking at others for sale, this is a bargain.
