A perfect all-rounder. Great bike for commuting, touring and first timers. All set and ready for the summer. This is a more powerful S2 version (72kW). The bike is equipped with ABS which is extremely handy in wet conditions or emergency braking. Key features: -Mechanically immaculate: 12 month MOT, brand new battery, recently changed oil/filter. -Very good bodywork condition for a 2007 make vehicle. -The bike has got only 12,914 miles on it. Used mainly to commute and stored in a garage. -Quality tyres: the front and the rear have at least 95% and 80% left respectively. -No modifications. Factory version. I am only selling it as I bought a car and no longer have time to use my bike. Such a great bike should not just sit collecting dust in a garage. I hope to find its new owner soon to enjoy riding this great bike, as much as I did enjoy riding it myself. If you have any questions, want more photos or would like to arrange a viewing feel free to contact me. Finally I can also sell my motorcycling clothing/gear if it would suit you. Looking forward to hearing from you. Prefer bank transfer. Collection only. Cheers.,
