Foundation Trained Labrador Puppy (2,500 GBP)

Location **South East, Surrey** https://www.freeadsz.co.uk/x-278185-z

PROFESSIONALLY TRAINED STUNNING LABRADOR PUPPIES - ONE YELLOW DOG AND ONE YELLOW BITCH (she is the one in the first photo) We are a dog training centre in Surrey and selected these two pups for foundation training from our litter. They have now completed their training and are ready for their new homes. Suitable for pet homes or could go on to be support dogs. They are exceptionally calm and have taken their training in their stride. Both are gentle and loving and settle around the house during the day. In the evening they sleep through the night in their crates and are clean in the morning when we let them out for toilet. The foundation training has involved house training, walking on the lead without pulling, waiting politely for food and sharing food, sleeping in the crate at night, car journeys, coming when called by voice and by whistle, general manners around people and not jumping up. They are also fully vaccinated, micro-chipped and treated against kennel cough. This is a foundation course so you must be aware that you will need to continue the training. They are almost 5 months old. Both parents are fully Health Tested, and well trained and you will be given copies of the parents hip scores, elbow scores and clear eye certificates with your pack. They have been raised and lived with 3 children and other dogs. Would be ideal as a companion for someone who would prefer a ready trained dog to an 8 week old puppy we can also support with extended or ongoing training if you have particular requirements and have a lot of experience for example with dogs with special training. We hold training courses here and if you live near enough you would be encouraged to attend with them or you can just book a custom training session if ever you need it. Also we will take them back on an ongoing basis for further residential training or just for fun activity.
