CAR FOR SALE: Honda Civic 1.6 CC Vtec Automatic – only 43,000 miles, long MOT (Feb 2017), Taxed until August 2016 Price £995 o.n.o. Registered 13-04-1999 White with black leather seats. A pretty car that would make an ideal first car or car for town and city driving. Very clean inside and out – including engine and brake cylinders. Since 2005 the car was owned by an elderly lady who kept it in excellent condition. Features: sunroof, air con, radio/cassette player, automatic windows, large boot space Faults: A few scuff marks on back and front, one on driver door and one on bonnet – all touched up so cannot be seen unless looking very closely. The heater only works on setting 3 and 4. Reason for sale – I bought it in haste because it is a nice looking car and I like Honda's – however, I miss manual gear box too much so with regret am.
