When people think about getting braces, the first thing that really worried that how wired it looks. Sometime it do not matter how it look, the important is the end result. There's nothing wrong with this method, at the end of the day how your teeth looks after removing the braces is what important. Damon Clear is part of the innovative Damon System, which combines tieless braces with high technology arch wires that are clinically proven to move teeth fast and comfortably with truly spectacular smile and facial results. It gives effective result over the traditional braces and clear aligners to deliver a good treatment experience with results that go beyond straight teeth.
