Needs a new home through no fault of his own, just not got time to spend with him. He says hello baby, what you doing, naughty boy and a few other words. He is semi hand tame, but has started to nip when trying to take him out of cage as we have less time to spend with him, so needs someone who is able to work with him to regain trust. We have a Haiti cage and sleep cover, play perch, box of toys, UV lamp, small carry cage and bag of seed mix to include in the price, we also have his breeders certificate. Never had any feather plucking issues he is a vocal and happy bird, we just have not got the time to spend with him anymore. He is unclipped and can fly, he has a harness but has not spent alot of time in it. He is such a character and we are extremely sorry to see him go, but feel he would thrive better with someone who has more spare time. mail me on: .
