The T8-AML-V3s is simply the best Android TV on the market. Looking for a 4K Media Streamer, look no further. condition, 1 month old, used one or twice. Supper fast, the latest great films, don't need a sky box, once of payment and ready to rock and roll. Beats the other plastic counterparts out of the water. The only reason I am selling is due to my new job. I simply don't have the time to watch TV. Shame to let it go to waste and loose value. £85 (no offers) + free Bluetooth keyboard

Ring/text 07449971767 Main Features
