This is Kenwood KDC-BT43U Car cd player, radio with bluetooth and USB. It includes a microphone with which you can make hands-free calls on your phone. It is immaculate and works perfectly. I owned it from new and bought it at Halfords in Dec 14. It can play music from your phone via bluetooth or by inserting a USB stick, or of course a CD and radio. The front face plate removes for security. All instructions are included. Details here - <http://www.kenwood-electronics.co.uk/car/oem/dacia/KDC-BT43U/> Also included is a Pro-Plus NSK-2160 2x85watts amplifier and all the cables you need to connect it up including the fuse. It was plenty powerful enough for me. The amplifier is old as you will see from the photos but works. it is far from new and I myself bought it used. In addition is a Bass-Face BASS8.1 800W 8 inch High Power Passive Bass Tube Car Subwoofer in perfect condition. It's quite big and I had it in the boot of the car. See here for details - [http://www.amazon.co.uk/gp/product/B00B49L1L8?keywords=bassface&qid=1456168444&ref=sr\\_1\\_1&sr=8-1](http://www.amazon.co.uk/gp/product/B00B49L1L8?keywords=bassface&qid=1456168444&ref=sr_1_1&sr=8-1) All of these items were fitted to my Mk3 Ford Mondeo until I recently sold it. If you happen to have the same car, I can supply the Wiring loom adaptor for an additional £5. You will need this if replacing the factory fitted unit in a Mk3 Mondeo and possibly other Ford models. I am selling this as a package and will not split it all up. The price is NOT open to offers - £100.00, plus £5 for the wiring loom if needed. Cash on collection only. No postage.
