I am based In South East London and I work from home. I offer psychic readings, face to face readings, telephone/skype readings and healings.

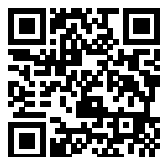

From a very young age, I noticed I was different as I kept seeing things that were not there. At the time I didn't know that they were spirits. I have had many profound spiritual experience. With the help of a guru I came to further learn and develop my abilities in order to understand my abilities. I now utilize my natural psychic and clairvoyant abilities to help others on their journey to grow.

Hope to hear from you soon.
