1996 Volkswagen Polo 1.0L with MOT till May 2016, this has been a good little car for me and has done whatever i have asked of it with only minor costs since i bought it last May. In the time i have owned it i have had the clutch cable adjusted and a rear wheelbearing replaced, plus three new tyres which i replaced in January. Way above average car as this one is not rotten in the usual Polo places and is pretty much an original car. I have the V5 but have lost the MOT certificate when i moved to Bletchley, (although you can check the MOT yourself online by Googling "DVLA MOT History" and it will show you that it's MOT'd on there) Ring or text on: (07531)
