## Professional online programming lessons (Java, C, C) (18 GBP)

London, London Location https://www.freeadsz.co.uk/x-289597-z

Hello! My name is Lukas and I graduated from Wroclaw University of Technology with a master degree. I have over five years of experience working as professional software developer (Java EE, .NET C#) and also about 10 years as Java SE/EE, .NET C# freelancer and private teacher of mathematics and computer science. I would like to offer you effective online lessons using TeamViewer and Skype - in the case of programming lessons, there is no difference between traditional meetings and online sessions - if you want, I can demonstrate it. I can learn you basics of Java and also I can offer you advanced Java programming training or I can help you to prepare for a job.
