Watch birds in their natural setting, feeding and nesting, from any room in your home.

During the day when it is lighter outside than in the house, the mirrored cover sticker allows you to see the birds without them seeing you.

At night when it is lighter in the house than outside, simply use the curtain card privacy screen on your window to cover up the nesting box, ensuring the birds cannot see you.

The all weather suction cups make this nesting box convenient to have on almost any window.

Fun and educational for all ages.

Simple and Easy to use

- 1) Immerse suckers in warm water for 1 minute, and then insert into holes at an angle, twist and push to insert securely.
- 2) Apply the mirrored sticker to the Perspex cover
