What is Salesforce.com? Why are so many employers looking for people who have that skill? How do you use it? In this course you will learn the answers to all these questions, and gain the ability to confidently present yourself as someone who knows how to use this popular CRM. If you're already working at a company that has Salesforce.com (SFDC), you will finally learn how to apply best practices to get the most out of the tool and make your work life easier. If you're considering a new career that will greatly increase your income and have terrific job security even during recessions, then this course is the foundation you need to be able to go on to our Salesforce.com Admin Essentials for Beginners course, which will train you as a SFDC System Administrator. Whatever your situation, this course will give you the opportunity to build technical competency with a pervasive business technology tool, Salesforce.com CRM.
