

5 year old Corn Snake (female) with vivarium and accessories (40 GBP)

Location

South East, East Sussex

<https://www.freeadsz.co.uk/x-291209-z>

5 year old 6ft (fully grown) female corn snake that is very healthy and tame weighing in at just over a kilogram and consistently eating large mice every week. Selling with 3ft by 1ft "AV" vivarium with sliding doors and a lock and a working thermostat. Moderate cosmetic ware to the vivarium but is covered up by a foam background (still gets good ventilation). The vivarium has live plants rooted to the background which are kept alive using coconut fiber substrate and a 23 watt UVB bulb which provides heat for the snake and natural light for the plants (i know this kind of set up isn't recommended for corn snakes, but it has worked well for over a year). The light and fitting are included and so is the water bowl etc... She is used to being handled and never bites and deserves a good home... only selling because going to university in September... ;
