Now making changes in excel becomes an easy task with Excel find and replace. This ingenious software can do alterations in multiple excel files like .xls, .xlsx, .xslm, etc. and has the capacity to execute them in thousands. Users can even alter the format of the words like bold, italic, strikethrough, etc. The words with a different format can be dumped and can be changed into a different one. A list can be made of the words that you are keeping and replacing so that they can be again utilized in future. All the features rigged in this software can make the work of searching and replacing words in excel easy & effortless. The tool has been devised to perform in all variants of MS Office i.e. 2013, 2010 & 2007. It is the best tool to find and replace in excel. For more info please feel free to email us on: [email]
