I bought this dishwasher for my elderly mum a while back. She hardly used it. I think it cost me about £250 - 300 when I bought it. It's been carefully stored out of the way in my garage for a while, but it's time it went to someone who wants a bargain and will use it.

It's in excellent condition. No scratches, dents or dings. As I said, hardly used. And carefully stored.

Standard 60 cm wide
