

Hedgedin premium artificial hedge boxwood plastic instant garden hedging cover scr

Location **North, Lancashire**
<https://www.freeadsz.co.uk/x-291719-z>

Our hedging is one of the best qualities of Artificial hedging on the market today. Idea privacy coverage for Garden walls, Garden Fencing, Balconies, Verandas Restaurants, Bars, Hotels, Shopping Centres etc. Product Features: UV stable foliage to prevent fading and discolouring. Flexible structure for easy hedge building. Instant Privacy. No maintenance required. Manufactured on large 50x50cm squares, our artificial hedging are ideal gardening materials to create seamless green artificial hedge walls and privacy screening. Our dark buxus plastic topiary hedging panels are quick and easy to install by putting each tile together with no more effort than a click, this method means you have the freedom to create designs as large or small as you desire on anything from flat surfaces to the curviest of corners. The rich shades of green fake instant hedges create a natural feel and are wonderful alternative to live hedging. Another important factor is the high density of leaves on each one of our artificial hedging panels; this creates a healthy and full looking artificial plant. All of our products are UV stable, which offers protection from factors such as discoloration and weathering effects, which will allow your hedging to look its best all year round indoor and outdoor. This alongside the larger and fuller synthetic hedge panels gives you great quality for less! This is the perfect product if you want to create maintenance free hedges, privacy walls and decorative artificial screenings. This product is also child and pet.
