

Space Excavation

Location **London, London**
<https://www.freeadsz.co.uk/x-293597-z>

Free consultation Initially we will arrange to meet with you and discuss your potential future basement project. These meetings will be with the Basement director. From day one you will be talking directly with the people that you will be dealing with on a daily basis. They will be the one who will be responsible of overseeing your project. We will discuss all options with you and we will choose the best solution. Retrofit basement "Space Excavation" Can build depth basement to provide extra living space for a multitude of uses. "Space Excavation" will send engineers to plan the design, make it cost effective with the structural team, and deliver the basement on time and in budget. Our approach to each project is to help the design team create a 'buildable project' with valued engineers' solutions, which save valuable time and space. Our extensive experience in basement construction ensures that we can provide the most cost effective solution for your project. Temporary Works Services may include: Shoring Façade retention Scaffolding Underpinning Party wall restraint Groundwater control Load transfer Structural monitoring Permanent Designs: Full basement shell design Underpinning design All forms of piling Underpinning Reinforced concrete Structural steel and fabrication Permanent steel decking Masonry Timber Waterproofing Drainage Groundwater control Dewatering Construction Works: Site Investigation & Preparation Demolition Scaffolding Most forms of Piling Propping | Shoring | Jacking Groundwater Control – Façade Retention RC Concrete Form Works | Slabs | Walls Excavation and Disposal of Excavated Material Most forms of
