Unique chance to own a Pug but not have the breathing issue, These are Pug x Yorkshire Terrier and are so adorable i think i should keep them all. Sadly I obviously can not so I am looking for only the very best homes for my babies, Mum is the Yorkshire Terrier. The puppies all look more pug with the pug like head. Being half Yorkshire Terrier they will be low to no moult. They will be incredibly intelligent and easy to train. Well socialized with children from as young as 2yrs old. Ready now
