Labrador puppies for sale,

They will come with :

- * 4 weeks free insurance
- * vet checked
- * micro chipped
- * wormed to date with drontol
- * flead to date with frontline

They are being raised on good quality beta puppy, and are used to being around other dogs and children.

Father is a well known local game keepers dog, which does beating work every week. He has a really good KC background and many FTCH in his lines.

Mother is also bred from working stock but hasn't really been worked much and is more of a pet.

Although father is kc reg, mother isn't so the puppies will not come with Kc.
