

Jeep Cherokee 1999 2.5 TDI (1,700 GBP)

Location **South East, Middlesex**
<https://www.freeadsz.co.uk/x-294796-z>

I am selling my 1999 Jeep Cherokee XJ 2.5 TDI,

I have had this car for the last 4 years, it has been well maintained with many parts being replaced.

In the last yeah it has had 4 new tyres, all new light up front with a clear lens conversion kit added, new rear boot struts and a reconditioned power steering box, all new rear brakes (drums, shoes, cylinders, spring kit and hand break cables)

within the last 4 years I have also replaced the clutch master and slave cylinder, central release bearing and presser plate, new radiator, all new universal joints on all the prop shafts, new fuel pump, new water pump and belts.

The car come with 3 sets of keys and all paper work and books.

The car also have a 250 watt DC power converter fitted in the boot.

The Jeep gests a full service every year this was done about 6 months ago.

The jeep still has an MOT but I will be happy to put a new one on for the sale. The Jeep does have some small makes and a small dent in the room but is in very good condition and it is always the best one

I see on the road.
