

iRobot Roomba 560 (85 GBP)

Location **London, London**
<https://www.freeadsz.co.uk/x-294945-z>

Here we have a trusted friend! A Roomba 560 robot vacuum cleaner.

These little gadgets are amazing! We've been using them for a few years and love the fact that they can be scheduled to start cleaning while you're at work!

Comes with one lighthouse and the docking charger. The battery is the larger 3500mha which runs this roomba easily for over 1hr 40mins, before it returns to its dock.

Can handle carpets, rugs and vinyl floors. Has the wire de-tangle-thingy technology and also has dirt detection. Which basically means it concentrates in that area should it find excess dust/dirt.

Comes with new filter, cleaning tool and brand new main.
