Aimed squarely at riders with a flair for quirky, The SR400 harks back to the days of kickstart only bikes, where everything was adjustable by hand! Don't be put off by the thought of having to kick it up every time, Yamaha have actually made it very easy to do! not to mention how easy it is to ride.. The lightweight and low centre of gravity as well as the very low seat height mean the SR400 is accessible to any rider of any shape or size. This One owner from new bike was supplied by CMC and we have carried out all service work. The condition is flawless, This little gem has really been someone's pride and!
