STARTS DRIVES WITH NO ISSUES

Isuzu engine 1.7cdti Diesel (100), The cambelt ,water pump/thermostat/aux belt, all replaced when i bought the car,as a matter of course at approx 163000 miles.

The reason for selling we are downsizing to small petrol car for new job which requires smaller car,currently staying in the UK. No issues with the car,air conditioning has never been used, didnt want to chase to get it repaired, as it was required to be replaced and preferred to have windows replaced as the car was not in the best of health, 53mpg, 1000 more on the clock.

£135 car tax per year

Car is smooth & quiet & very comfortable on long journeys. Don't let the mileage put you off, this is the isuzu engine.

Just get some Tax & Insurance & drive away, Has just under half tank of diesel.

Car is £1250.00 or nearest sensible offer ,cash only .....Thankyou

Please ring or txt me ONLY, between 1pm & 6pm to arrange
