VW polo 6n2 1.0 86k Cheap Insurance MOT MOT'd until feb 2017 Drives 100% no known faults Clutch is nice and low Very cheap to tax and insure for new drivers (paid £700 for first year) Had the following replaced mid 2015: Clutch & Flywheel Water Pump Cambelt Disks Pads Tyres Full service also Bad Bits (every car has them): Small crease in passenger door, not very noticeable A bit of paint peel on the bumper (chipped off the plastic) (has been on the drive for a month and when I last started had the emission light on relating to the egr, but this has been checked by a mechanic and no known faults so probably just needs code cleared) it passed the MOT like this so I know 100% it isn't a failure and the garage checked it and said it was nothing to worry about (very common on these) and infact the emmissions test passed fine I haven't started for a few weeks so battery is flat (will need a charge) £850 ono Location
