READ READ READ WHOLE AD BEFORE ASKING QUESTIONS FFR EX MILITARY 200 TDI awesome piece of kit. MOT'ED until next year

OLD ENGINE REMOVED AND REPLACED WITH A MODIFIED STRIPPED DOWN 200 Tdi Land Rover 200 Tdi complete Engine nut and bolt rebuild (Done by Landrover Engineer of 40 years Experience) only 2000 miles since complete rebuild. - NO LONGER CAMO THIS HAS BEEN PUT BACK TO NATO GREEN! Before and after pictures added new upgrades. Yes over £17,000 pound spent on this vehicle alone with parts and labour, it cost me £7,000 for the ex military FFR donor vehicle alone and then it was stripped to bare metal and rebuilt completely including engine by us, so you could buy cheaper but remember you get what you pay for and this vehicle is probably one the best examples on the road. I am in no rush to sell it, I rather keep it if I'm totally honest, I just have another project underway and this is just sitting doing nothing, I service it every 3mths regardless if it's used or not. lots of upgraded parts and modifications to make it very fast, it cruises at 90mph and is super fast for a 200tdi, not many td5 or my 300 tdi cannot keep up with it, like I say some very smart upgrades done by our top engineer, some new ideas that has made this engine a little different!! metal shim head gasket for a start!! upgraded fuel boost pin, twin air intake system which gives breathes more air into the engine and has upped the performance, beautiful to drive. Like I say all new parts in engine nothing not replaced !! every single part never mind how small. Complete internal anti roll cage with thick insulation lining throughout, fibreglass roof rare and very expensive, brand new £500 black box heater in box ready to be fitted. Remember you get what you pay for, only selling it as I have some large projects on the go, This was built by us and I had no intentions of selling her hence the money invested into it, so really don't care f I sell it or not. I will inot be

accepting offers either. There plenty of sheds out there, this is like a new vehicle in many ways and I've never. This was the best I got me and I've spent thousands on other. NO ONE HAS SPARE PARTS ANYMORE
