Depression, new effective and safe treatment

South East, West Sussex Location https://www.freeadsz.co.uk/x-297280-z

rTMS repetitive Transcranial Magnetic Stimulation rTMS is an innovative, safe, effective and welltolerated, non-invasive treatment for people that suffer with depression, including those who have not benefitted from antidepressant medications, cannot tolerate antidepressant medications due to sideeffects or wish to treat depression without medication. The treatment is provided at the Montefiore Hospital in Hove & Brighton. For further info please contact us on 07596343999 Read more at www.rtmsuk.co.uk or contact us on [email]
