

# HANDMADE REAL WOOD BATHROOM FURNITURE WITH PERSONALITY (850 GBP)

Location

Scotland, Strathclyde

<https://www.freeadsz.co.uk/x-298093-z>

For whom is looking for a one of a kind bathroom furniture set with a distinctive character and personality that is unique and ONLY ONE OF A KIND...ITS KIND! No mass or product line work productions but quality items from a craftsman that shows only his love for woodworks makes this possible! They will look great in a vintage ambience: a house, a restaurant, a pub etc!!! The piece in the pictures is typical of a traditional rustic cabinet, as would be utilised on a farm in Lombardy around the nineteenth century, which was transformed into a vanity unit by adding a basin, a mirror and 6 shelves at either side of the mirror itself. A smaller unit to conceal the cistern and house a toilet pan, built to match the vanity unit is also available. Our units are made with reclaimed timber and darkened using only natural products, not chemical stains or dyes. The gleaming finish is obtained by applying several coats of a craft gloss varnish, based on premium quality resins and is waterproof. Further details and history of these beautiful, hand crafted pieces are available; please contact the artisan by email. Vanity unit comes at only £850 (as seen in the photo and includes a traditional two tap holes semi-recessed basin, two traditional Victorian brass taps, brass waste and P trap). We can make real wood bathroom furniture to measure, different shades of varnish and different styles; also following your own projects and!
