The new GSX-S1000FA with its legendary GSX-R engine, aluminium chassis, three-mode traction control, Brembo front brakes and Renthal Fatbar, has been designed to deliver the perfect riding position to make light work of the hardest of rides. This bike was used as a demo, though has only covered 186 miles. As such it is in perfect condition and a real bargain with saving of over £900. The first service at 600 miles will be included in the purchase price, so another nice saving there. Part exchanges are very welcome as we are always looking for used bikes, we are also happy to settle or arrange finance and trade up or down. £8599
