

Pedigree lemon and white Beagle (300 GBP)

Location **South East, Kent**
<https://www.freeadsz.co.uk/x-298717-z>

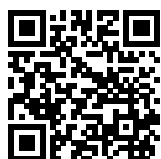

Basil is an 11month old pedigree beagle(all papers available) he has had all his injections, micro chipped, flead and wormed, he has also been neutered. Basil is a very loveable, good looking dog who loves nothing more than a nice long walk and big cuddles, he does however have bit of naughty side, he loves to rummage in the bin if given a chance and if not shown enough attention will go and find himself a children's toy to go chew on(this has got better as he has gotten older) He can sit on command and will give you a high five in return for a treat of course! He is a wonderful dog and we will all miss him but due to a change in circumstances at home we will not be home enough during the day to keep him happy. He is great with kids, dogs, cats and even our Budgie!! He would be ideally suited to a family with plenty of time as he doesn't like to be left alone for long, he follows you everywhere even the toilet and can take him for walks and cuddles. Please only genuine people need apply and we will only let him go to the right.
