

son HDR CX405 camcorder (100 GBP)

Location South East, West Sussex
https://www.freeadsz.co.uk/x-299107-z

Key Features
Optical SteadyShot with Intelligent Active Mode Image stabilisation keeps footage blur-free, even when the recording circumstances or the user's hands are shaky. **Up to 26.8 mm Wide-Angle Lens** Whether you're shooting movies or still images, the class-leading wide angle lens can help you capture more of landscapes shots and indoor scenes, when you don't have enough room to step back. Even without a wide conversion lens, selected camcorders shoot as wide as 26.8 mm (16:9 aspect ratio) in movie mode. **Image Quality** The high-bitrate XAVC S format is for videographers ready to take their work to the next level. Delivering incredible quality, XAVC S is built from the XAVC format used by professional filmmakers and broadcasters, while employing intelligent data compression to export consumer-friendly file sizes. **Highlight Movie Maker** A versatile tool to streamline movie editing, Highlight Movie Maker offers several time-saving features. Add highlight markers to key moments while recording and let the software automatically sync your transitions to your chosen soundtrack. **Motion Shot Video** Motion Shot Video plays a sequence of superimposed images that trace recorded action in split-second intervals for you to analyse in detail. During playback, you can adjust the interval or pause to capture and share a still image. **Built-in USB cable** The built-in USB cable stowed in the hand strap is very convenient for extra-quick charging and connection to a PC, so there is no need to pack a bulky extra USB cable or AC adapter. For charging without a PC, use a compact AC-USB adapter (optional). **Exmor R CMOS sensor** This large, cutting-edge sensor enhances image clarity, reduces noise in dark environments and enables soft background defocusing. **BIONZ X Image Processor** The BIONZ X image processing engine helps achieve more naturally vivid and lifelike image quality as well as faster processing capabilities. **Zeiss lens** Sharing a commitment to performance and design, Sony and Carl Zeiss co-develop lenses that combine

the better optics with premium-quality electronics and sensor technology for Sony's Handycam models.

Key Specifications: Lens: 1/1.7" Zeiss Vario-Sonnar T* Screen: 3.5" 7.6cm (2.7" touch) Photo: 15.2MP (2592x1728 pixels) Wide-Angle Sensor Type: 3.1" Exmor R CMOS sensor (3.1" diagonal) Illumination: 1000 lux CMO sensor
Video Output: 1080p 60fps Composite video out HDMI 1.4 (Type A) Box Contents: Camcorder
Re-chargeable Battery

Ac Adapter
USB Connection Support Cable
HDMI Micro Cable
