Home cleaning - steam cleaning. Hello,

Research has shown that steam cleaning is vastly more effective than traditional washing and scrubbing. Steam cleaning kills various types of bacteria including salmonella, listeria, staphylococcus and streptococcus. It is also effective against mould, mildew, dust and mites. Steam Cleaning Leeds can clean floors, walls ceilings, work surfaces and all manner of food preparation equipment.

Please check out our website www.steam-cleaning-leeds.co.uk for additional information about Steam Cleaning Leeds.
